

CROMER PUBLIC SCHOOL

STUDENT LEADERSHIP - 2024

Policy Statement

Cromer Public School believes in maximising leadership opportunities for all students. These leadership opportunities are underpinned by the following principles:

Students who are respectful of Cromer Public School values and show commitment to the role have a right to be considered for opportunities that will allow them to develop and display leadership.

All Year 6 students will have opportunities to be leaders in the school, through setting a standard of effort, learning, attitude and behaviour. Each Year 6 student will have opportunities to work in a team with their student leaders to support events in the school.

Leadership skills will be taught in a systematic and explicit manner to all students within the school. All year 5 students will complete leadership activities, which will be run during class time by the Year 5 teachers. All leadership positions are considered important and valuable to the student and the school.

Leadership opportunities need to be determined and taken up with due regard to equity of opportunity for all students. All leadership opportunities should reflect gender equity at each level of leadership opportunity offered.

The Principal, in exceptional circumstances, and after consultation with the staff may determine that a student's behaviour is presently rendering them unsuitable to hold a designated leadership role within the school.

Year 6 Leadership Process

- To be eligible, students will be required to participate in home and school community service and reflection at a high standard and complete two log books which include 2 signed log books
